It may be necessary to amend the above table if the need arises due to families needing extra support with easing the financial burden of payments needed throughout the school year.

Pupils were able to participate in 2 residential visits; one to the Lake District, and one to London.

Pupil premium was used to assist with costs so that the children could experience these exciting visits.

We have also been able to fund extra tuition for some of our older children who weren't on target to achieve their full potential (eg 2 of our Year 6 boys who were taking end of key stage assessments in May 2015). Both boys gained a higher level than what was expected.
